

CS460 Fall 2019

Name: Frank Novak

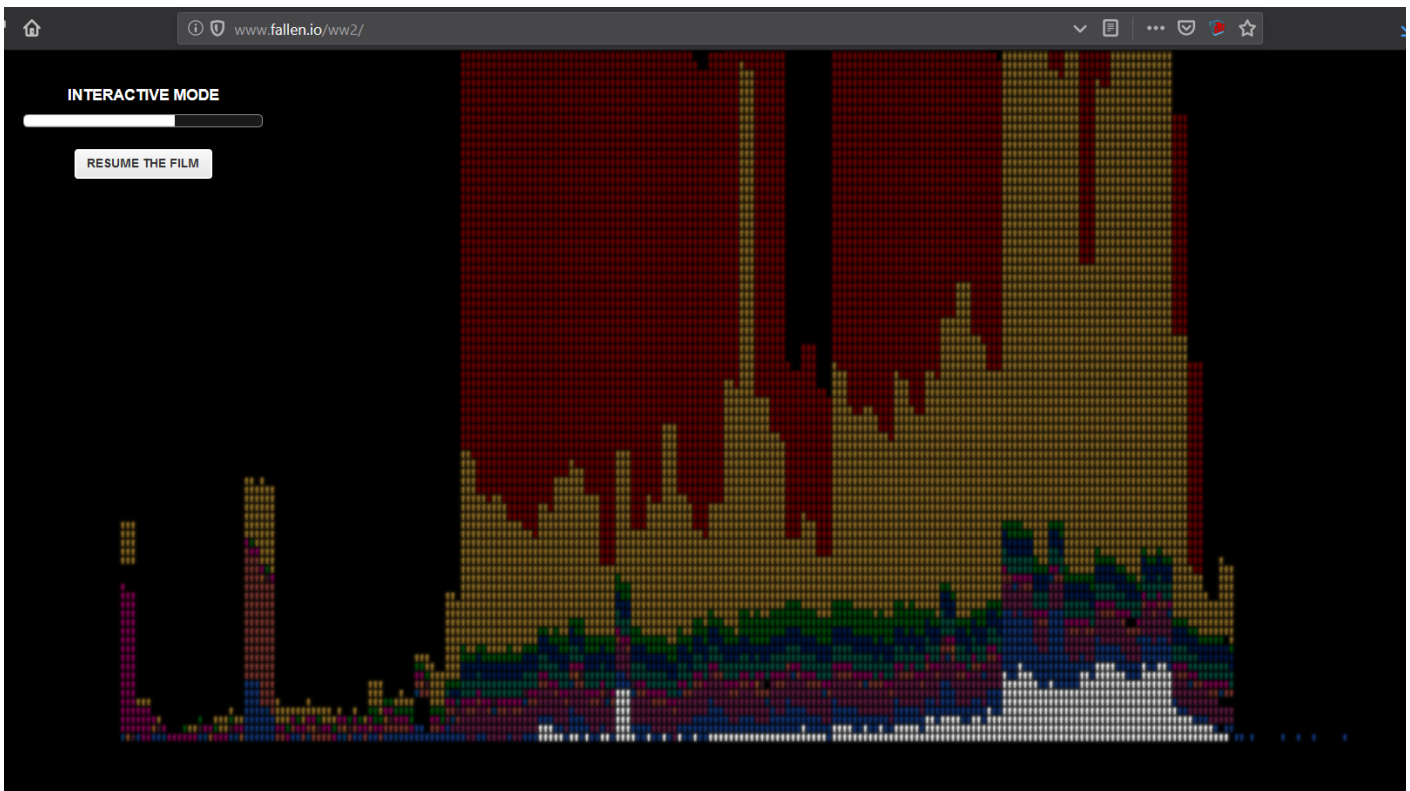

Student ID: YOURID

Due Date: 09/09/2019

Assignment 1: Intro

Describe your favorite WebGL demo.

My favorite demo is The Fallen of WWII.(<https://www.fallen.io/ww2/>). This demo creates an interactive documentary of how many casualties there were during the second World War. At times during the documentary you are able to interact with graphs and charts to dissect the data even more. I like this demo so much because WWII is my favorite time period to learn about and this demo allowed me to gain more insight into something I am interested in. I also believe that this demo is important because the way it is animated really shows the gravity of the war and just how many people lost their lives.

Technologies used:

- HTML/CSS/JavaScript
- Three.js
- Google Analytics

Bonus: If possible, try to host the project as your own Github repository and make it accessible via Github pages. Please make sure to credit the original authors. Then, link the repository here: <https://ADDLINK>
